SUBJECT No. 350.

The Nyamti School.

Mr. Gurusiddaiya, Honnali Taluk.

Summary of discussion.—The Nyamti School was an Anglo-Vernacular school till about two years ago. For want of sufficient attendance in the English classes, they were abolished. The residents of the town who were anxious to give their boys the benefit of an English education asked for the classes being re-opened. In reply to their request, the Deputy Inspector of schools stated that steps would be taken to comply with the request if the residents of the town agreed to pay in advance the salary of the English teachers for one year. As the people have suffered much on account of the plague and bad seasons for some years past, the English classes may be ordered to be re-opened unconditionally for the benefit of the school-going population of the place.

Reply of Government.—Will be enquired into.

SUBJECT No. 351.

A Local Fund dispensary at Nyamti.

Mr. Gurusiddaiya, Honnali Taluk.

Summary of discussion.—The dispensary is now located in a house in the centre of the town. As it is not possible to keep open the dispensary there during the plague season, a separate building may be constructed for locating it.

Reply of Government.—Will be considered when funds permit.

SUBJECT No. 352.

A road to Tirtha-Rameswara from Belaguthi.

Mr. Gurusiddaiya, Honnali Taluk.

Summary of discussion.—A road to Tirtha-Rameswara is necessary.

Reply of Government.—This work has already been noted by the Taluk Board.

SUBJECT No. 353.

Kankanhalli Tank.

Mr. Gurusiddaiya, Honnali Taluk.

Summary of discussion.—The channels from the Sogil anicut run to a length of 5 miles. As a new tank has now been constructed at Soulanga it will be useful to extend wet cultivation by the construction of a new tank at Kankanhalli across the Karehalla.

Reply of Government.—A project is under preparation.

SUBJECT No. 354.

A dam across the halla running between Danehalli and Kodachiganahalli in the Honnali Taluk.

Mr. Gurusiddaiya, Honnali Taluk.

Summary of discussion.—Between the villages of Danehalli and Kodachiganahalli in the Honnali Taluk, there is a halla containing a perennial supply of water. A dam across the halla will bring several dry lands of the two villages under wet cultivation. The work is a useful one and may be undertaken.

Reply of Government.—Will be referred to the Deputy Commissioner for needful action.

SUBJECT No. 355.

Water-supply to the Shikarpur town.

Mr. Siva Dikshit, Shikarpur Municipality.

Summary of discussion.—Though Shikarpur is a large town with a population of 5,000 it has no good water-supply. It was prayed that a dam might be constructed at the Tiruguni maduvu in the Kumudvati river and water conveyed from it to the Hucharayanakere. This and work besides affording a supply of water to the town will bring a large extent of dry land under wet cultivation. It seems that an estimate for these works was prepared
